| The ASN-D Civic Center, Corridor Mixed Use District is intended to be located in areas designated downtown on the future land use map of the comprehensive plan and includes the north side of West Gaines Street between Railroad Avenue and South Boulevard Street, and the east side of Railroad Avenue between West Gaines Street and West Madison Street, with specific boundaries as depicted on the zoning atlas downtown area map series. <br> This District is established for the purpose of creating a high-intensity urban activity corridor, facing and complementing the north side of West Gaines Street in ASN-C, and continuing the development character of Railroad Avenue in ASN-C. The area is envisioned as a primary local destination for living, working, shopping, and entertainment. The primary intent of this district is to promote redevelopment in a balanced mix of residential and commercial uses at the greater intensity than in the adjacent districts in attached buildings, with a new dynamic and very urban character. The regulations are designed to encourage a pedestrian orientation, and to make transition from the scale of the Civic Center to the smaller scale of ASN-C. <br> The residential density shall not be less than 16 dwelling units per acre and shall not exceed 100 dwelling units per gross acre <br> Development Standards for this zoning district are established with the Downtown Overlay Regulating Plan map series and applicable sections of Division 4. | 1.
