

What is Project Share?

When the summer heat or the winter cold hits Tallahassee it can be an extremely difficult time for some local citizens. Fortunately, Your Own Utilities has a program that allows you to help those truly in need.

The City of Tallahassee Utilities' Project Share community program began in 1986 and since then has aided thousands of its utility customers needing assistance. Project Share funds are administered locally by the Capital Area Community Action Agency through a screening process. Each application is carefully scrutinized to ensure the funds are used by those in real need.
